The following is an examiner's statement of reasons for allowance: the examiner agrees with applicant's remarks that the prior art teaches away from coating an aluminum stud with a less conductive titanium when the stud is to be arc welded. Specifically, the prior art does not disclose nor provide motivation for providing an aluminum or aluminum alloy stud with a separate distinct layer of a titanium material wherein the stud is arc welded to a substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Flemming Saether whose telephone number is 703-308-0182. The examiner can normally be reached on Monday through Friday.
